The purpose of this PDF is to help those studying Al-Arabiyyah Bayna Yadayk Book 1 to memorise the vocabulary that is within it. It has been split according to the chapters in Bayna Yadayk and I have written the verbs in the past (ماضٍ), present (مُضارع) and gerund (مُصْدَر) forms. I have also included some of the nouns in the singular (مُفرَد) and plural (جَمْع) form. The vocabulary has also been translated. Please note that the translations are in accordance to the context that the word came in the book. Many words have multiple means so if you come across a word in a different context and it doesn't make sense please refer to a dictionary as its meaning is likely to be different in that context.

Although this PDF is intended for students at any level it will be most beneficial for the student who has a little background in Sarf (Morphology) and Nahu (Grammar) as they will be able to manipulate the vocabulary in this document to formulate sentences and in turn be able to use this vocabulary during conversations in shaa Allah. It will also help to increase the student's understanding of the Arabic language in shaa Allah.

This document can be spread, shared, posted and changed in any way without seeking prior permission from the author. If there are any mistakes that anyone would like to point out then I would appreciate it if you contact me on the email address which can be found below.

I ask Allah Azza wa Jal to allow this document to benefit Islaam and the Muslims and allow it to be a means for people to be able to understand His Speech the Quran and His religion Islaam. Likewise I ask Allah to accept the efforts of anyone who helped me to produce this PDF especially my teacher Ustaadh Syed and my wife and that He blesses us with sincerity in all of our actions.

## **Preface to the second edition**

الحمد لله رب العالمين والصلوة والسلام على أشرف الأنبياء والمرسلين نبينا محمد وعلى آله وصحبه  
أجمعين

After releasing the first edition of this PDF and receiving a lot of positive feedback I decided to get one of my teachers Dr. Anwar Ahmad Badawee May Allah preserve him from the Arabic Institute of Mohammad Bin Saud Islamic University to check the PDF. He corrected some mistakes and made some amendments. He recommended that I add the *Ism Al-Masdar* for a few of the verbs due to the fact that the *Masdar* is very rarely used whereas the *Ism Al-Masdar* is more commonly used. In such cases I have changed the colour of the *Ism Al-Masdar* to red so the student can differentiate between the two.

May Allah accept the efforts of Dr Anwar and everyone else who helped to produce this PDF and may He grant us success in this worldly life and in the Hereafter.
